BOOK REVIEW

P.L.C. Torremans  134

It seems that whenever one writes about the United States or around the world, it is certainly true on this occasion. In a history of patent laws in decades, the stage is set for patent harmonization.

1 Domestic Improvements at Home

The impetus for a comprehensive reform of the patent laws in the United States in 2003 came and went, including some domestic improvements and hearings conducted by the Federal Trade Commission (October 2003). In the following years leading up to the Patent Reform Act of 2011, which produced a report of its own

From various court decisions, the Patent Reform Act of 2011, which produced a report of its own

To Promote Innovation: The Proper System, improving the quality of grant procedures that serve as a foundation for innovation.
